

CV AT A GLANCE

Prof. Bhaskar Chakraborty

Department of Chemistry (PG & UG Studies in Chemistry)

NBBGC (Erstwhile: Sikkim Government College, Tadong)

An Extension Centre of Sikkim University

Gangtok, Sikkim-737102, INDIA

BRIEF PROFESSIONAL PROFILE

Professor of Organic Chemistry at NBBGC, former Sikkim Government College (An Extension Centre of Sikkim University), Tadong, Gangtok, Sikkim, India with 32 years of teaching experience in teaching Undergraduate and Post graduate Chemistry students. Have been actively engaged in research work (30 years) and established **“Green Chemistry Research Laboratory”** at the institution in **2001** with the aid of (UGC, DST-GOI) as well as assistance from Education Department, Government of Sikkim. Since then, have supervised eight (8) research scholars for their Ph. D degree (highest academic degree) and two (2) research scholars are working now. All the PhD awardees are now working as **“Associate/Assistant Professors”** in various government colleges and universities in Sikkim and in other parts of the country. My research publications in various International & National research journals exceeded 95 numbers and highlighted our state Sikkim in the country and World through various conferences held in national and international universities from 2004 till date.

In addition to that, I have represented our state and country as **“Visiting scientist/academic fellow”** in Cardiff University, UK (2019-2021), Imperial College of London, UK (2014-2015), ETH, Zurich, Switzerland (2025-6 months) and as **“Invited speaker”** in many international and national universities in Europe (England, Germany, Greece, Wales, Netherlands, Italy and Switzerland) & all the **“Indian Science Congress”** held in various IIT's/Central/State Universities in various parts of our country from 2000 to 2023. During these events, I have highlighted our state and country in various aspects of green methodologies that have been adopted in our research laboratory.

Has 23 years of administrative experience as **“Head of Department”** in the institution. Has authored four (4) books on the **“Synthetic applications of nitronc cycloaddition reactions”**. Has been awarded with many international and national awards and international awards like **“Best Researcher Award”** by CRSI (Chemical Research Society of India), **“Bharat Sikhsha Ratna”** (NGO-New Delhi), and IBC-Award (International Bibliographic Organization of the World (Cambridge,

UK), University of North Carolina, USA award (2026) and many more. Has been associated as “Life member” with various international and national scientific organizations. Regular reviewer of International journals like *Journal of Heterocyclic Chemistry (Wiley)*; *Tetrahedron Letters (Elsevier)*, *Synthetic Communications and Green Chemistry Letters & Reviews (Taylor & Francis)* and *Indian Journal of Chemistry CSIR-NISCAIR*.

Editor-in-Chief of “*Journal of Multidisciplinary Hill Research*” (inaugural issue will be published shortly). .

Regular (weekly) “**Articulator**” for our reputed Daily “**Sikkim Express**”, “**Summit Times**” & “**The Statesman**” highlighting and mainly focusing on current affairs, scientific aptitudes, advises to students in HS and college levels and works and applications of “Nobel Laureates”.
